

DESCRIPTION OF OUR INTERNSHIPS PROGRAM

The Personal and Professional Project:
a real tool to encourage professional experiences.

The various internships included in our 3-year program are **mandatory**
(one of them must be undergone abroad).

Persons in charge:

Charlotte Becquart : Charlotte.becquart@ensc-lille.fr

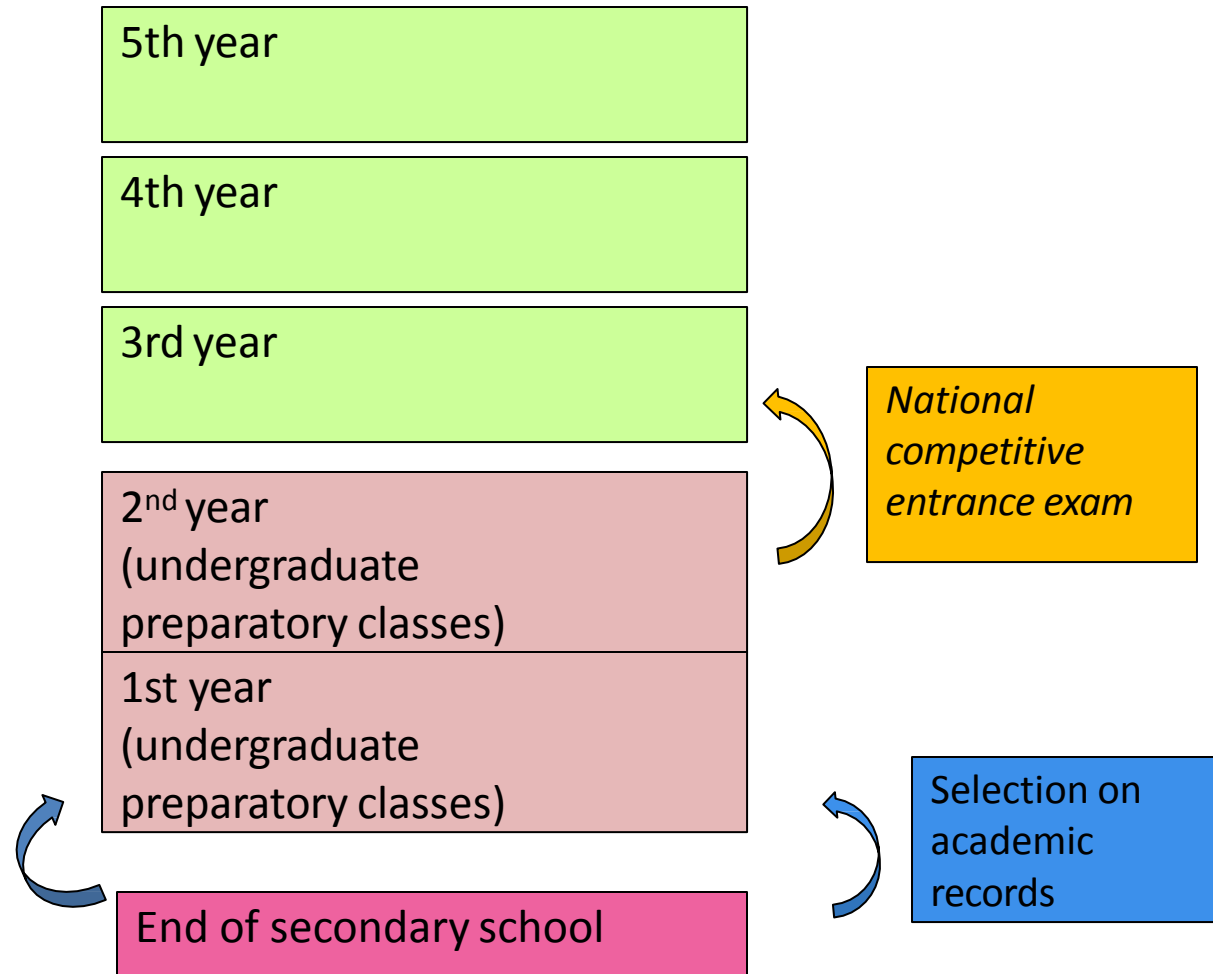

Zahia Turpin: Zahia.turpin@ensc-lille.fr (placements abroad)

Engineering program
Master's degree

Education

PhD or JOB

Description of the internships during our engineering program

- 3rd year: A 6-week minimum duration “Discovery Internship” (between mid-June and beginning of September).
- 4th year: An 8-week minimum duration industrial engineering internship (between mid-June and beginning of September). We strongly recommend a 3-month internship.
- 5th year: A 6-month final year internship project during the 2nd semester (between beginning of March and end of September). These placements are paid by the company.

According to our rules and regulations, a minimum of 14 weeks in a company is mandatory as well as a **3-month** stay abroad in order to validate the engineering degree.
